# ABOUT THE CONFERENCE

The 17th Annual India Chemical Industry Outlook Conference organized by ICC comes at a critical juncture of a very uncertain geopolitical scenario of two wars – the Russia Ukraine war and the Middle East flare up.

Major concerns across the world are Energy, Security, Food and Commodity Security, Supply Chain Disruption and Economic stability. Businesses globally are building geopolitical impacts in their business strategies. Ocean politics, control and influence over major trade routes like South China Sea and the Red Sea could pose a new set of challenges for the Business and Trade.

Till last year Climate Change and Sustainability was at the top of the agenda for business leaders – while they remain paramount AI is fast emerging as a new tool of business. As the world grapples with a multipolar world India emerges in the sweet spot of a healthy GDP growth and a pre-eminent position of influencing global opinion.

ICC, along with McKinsey brings to you in this conference all these complexities. The current trends and how business should adopt and take advantage of the new opportunities and how to mitigate risks and downsides.

The Conference also brings to the fore major areas of functional excellence like AI & Digitalization, De-risking Procurement Focused R&D and a quicker Lab to Market Route Innovation and Start-Ups These functional excellences help in building resilience and build opportunities of growth.

## WHAT'S IN STORE FOR YOU

### Indo-UK forum for chemical partnerships

Partnership between India and the UK to foster growth of the chemical industry.

### State governments' pitch for industry

Panel discussion with leading states on enablers to fuel growth for chemicals

### Elevator pitch by next-gen startup founders

A platform for startups with bold, disruptive innovation to grow with industry support

### A walk on 'Moving to Net Zero'

Booth walkthrough on strategies supporting the decarbonization pathway

### Virtual Go & See for a Digital Lighthouse

Success stories from World Economic Forum's push for Industry 4.0 technologies

### Unravelling the potential of Gen AI

Transformative power of Gen AI use-cases for a manufacturing setup

### Whitepaper launch by McKinsey & Company

Playbook for Indian players to secure competitiveness & protect their margins

### International Partnership

India - Japan Partnership | India - Flanders, Belgium Partnership | India - UAE Partnership

## ABOUT THE ORGANISER

INDIAN CHEMICAL COUNCIL, established in 1938, is the apex national body representing all sectors of chemical and allied industries in India. ICC has membership of around 500 Indian and multinational companies operating in India representing Organic & Inorganic Chemicals, Plastics, Petrochemicals & Petroleum Refineries, Dyestuffs & Dye Intermediates, Drugs & Pharmaceuticals, Agrochemicals, Fertilizers and Pesticides, Speciality Chemicals, Paints, Leather Chemicals, Lube-Additive Manufacturers etc. and also has membership from leading Logistic companies. ICC is a full member of International Council of Chemical Associations (ICCA).

This event is supported by Dept. of Chemicals & Petrochemicals, Govt. of India. McKinsey & Company is the Knowledge Partner and ET NOW is the Telecast Partner.

## ABOUT OUR KNOWLEDGE PARTNER
